CIA's Lighthouse Surveillance And Rapid Response Force

TOP SECRET//COMINT//REL TO USA, FVEY

LIGHTHOUSE SITREP

At POTUS' behest, we have gathered significant intelligence on the nation's lighthouses, which POTUS has deemed a grave and imminent threat to the American homeland:

- There are currently 429 known lighthouses in the U.S.
- The majority of these lighthouses feature lights that rotate, which POTUS has identified as an act of aggression
- It is unknown how many of these lighthouses contain lighthouse keepers, nor is it known what they may be plotting to do with the powerful beams of light that are at their control

HIGH-PRIORITY TARGETS

TOP SECRET//COMINT//REL TO USA, FVEY

POINT JUDITH LIGHT

LOCATION: Narragansett, RI

THREAT LEVEL: Blue

ACTION: Monitor

TOP SECRET//COMINT//REL TO USA, FVEY

BALD HEAD LIGHT

LOCATION: Southport, NC

THREAT LEVEL: Yellow

ACTION: Monitor; conduct additional recon

TOP SECRET//COMINT//REL TO USA, FVEY

CAPE NEDDICK LIGHT

(ALIAS: THE NUBBLE)

LOCATION: York, ME

THREAT LEVEL: Orange

ACTION: Assign armed drone for 24/7 surveillance

TOP SECRET//COMINT//REL TO USA, FVEY

MORRIS ISLAND LIGHT

LOCATION: Morris Island, SC

THREAT LEVEL: **RED** (EXTREME THREAT)

ACTION: Disable or destroy

TOP SECRET//COMINT//REL TO USA, FVEY

PRESQUE ISLE LIGHT

LOCATION: Erie, PA

THREAT LEVEL: **RED** (EXTREME THREAT)

ACTION: Identified for immediate targeted strike

TOP SECRET//COMINT//REL TO USA, FVEY

INVESTIGATIVE OBJECTIVES

- As per POTUS' directive, we have prioritized the investigation of the following lighthouse-related threats:
 - Can a pattern be deciphered from the way their lights rotate around in circles?
 - What would be the result if a lighthouse or lighthouses turned their beams onto the American homeland instead of out to sea?
 - Why are they so tall? And could they get taller?
 - Could we, if necessary, use mirror technology to redirect beams back at lighthouses to use their own power against them?
 - Do lighthouses act in alliance with lobstermen?

TOP SECRET//COMINT//REL TO USA, FVEY

INVESTIGATIVE OBJECTIVES

- We are also determining whether striped lighthouses and solid-colored lighthouses might represent rival factions and, if so, whether we could pit them against one another for our own ends.

TOP SECRET//COMINT//REL TO USA, FVEY

PHAROS OPERATIONS TEAM

- In conjunction with POTUS, we have devised the following response:
 - 500 MQ-1 Predator drones deployed to patrol nation's seaboards and lakeshores to take out lighthouses if their beams become too powerful
 - 10 ICBMs readied to take out entire Maine coast if deemed necessary
 - Utilize black-ops team to covertly capture Tillamook Rock Light off coast of Oregon and attempt to extract vital information about lighthouse technology and plots against homeland, and if possible, turn lighthouse into mole for U.S. side
 - Through mix of airstrikes, timed charges, and incendiary devices, we estimate we can and will eliminate all lighthouses by mid-2018, as POTUS has requested
